

DAB+/FM
stereo radio

TELESTAR DIRA S 20

The TELESTAR DIRA S 20 combines excellent sound experience with cutting-edge digital radio technology and modern design. The radio receives DAB+ as well as FM radio signals, two full range speakers in combination with the DSP provide a unique sound experience. The TFT color display shows background information about an ongoing programme in pin-sharp quality.

Another plus: its user-friendly, multilingual OSD menu in combination with a well-structured remote control ensures simple and intuitive operation. Many useful functions, such as alarm clock mode, equalizer presets, auto-channel search etc. make the TELESTAR DIRA S 20 one of the best radios in its class.
