IMPERIAL® DABMAN i500 BT

The IMPERIAL DABMAN i500 BT combines the features of a DAB+ and FM radio with the huge possibilities of an web radio and home networking device. This device offers all three radio technologies plus a variety of additional features wrapped up in a 43cm HiFi case - the ideal component to bring your HiFi system to the next level. Being capable of receiving digital and analogue radio signals via DAB+ and FM as well as internet radio stations, the DABMAN i500 BT may also be connected to mobile devices via Bluetooth and UPnP in order to play back music files from smart phones or external storage devices. Another plus: thanks to its WiFi capability, the DABMAN i500 BT may be used as a „nerve centre“ for multiroom operation, bringing your favourite music to every room in your house. Speaking of music: the i500 BT supports a variety of web music streaming services, such as Napster, Deezer or Tidal and many more. It may be easily operated via remote control or via smart phone/tablet by using the free application (iOS and Android supported). In sum: the DABMAN i500 BT is the ideal solution for upgrading your HiFi set to a full-scale audio entertainment centre.
