### Top-Features:

- Compact digital radio with WLAN: A space-saving digital radio that offers access to numerous Internet radio stations and streaming services thanks to WLAN.
- Music playback via Bluetooth 5.3, USB and CD: Supports wireless audio streaming via Bluetooth 5.3 and the playback of music files directly from a USB stick. The device also has an integrated CD player that enables audio CDs to be played.
- Bluetooth transmit and receive function: Can be used as a Bluetooth receiver for external devices or as a transmitter for wireless speakers or headphones.
- Programmable night mode: Individually adjustable night mode that automatically switches the display off in a defined time window and switches it on again later.
- Speakers with 2x 15 watts of music power: Equipped with two powerful speakers that deliver a clear and powerful sound with 15 watts of power each.
- Recording function on USB memory: Allows you to record radio programmes or music directly onto a connected USB memory device.
